TRANSPARA AND SAIC SIGN RESELLER AGREEMENT

Companies Team up to Market Real-time Data Visualization Solutions to the Oil and Gas and Utilities Industries

Pleasanton, Calif. – November 23, 2009 –Transpara Corporation, a leading provider of operational intelligence software, today announced that it has signed a reseller agreement with Science Applications International Corporation (SAIC) [NYSE:SAI], a FORTUNE 500® scientific, engineering, and technology applications company, to market real-time data visualization solutions to oil and gas and utility companies.

Transpara's expertise in real-time data portability combined with SAIC's deep domain knowledge in the energy sector will help customers increase operational efficiency and improve decision making throughout all levels of the organization. Purpose-built for delivering data to users on any mobile device or PC without any additional programming, Visual KPI optimizes information display for any size handheld screen and enables users to immediately hone in on the areas that need attention.

"Because we understand our customers' business, processes and IT environments, we can recognize gaps in application portfolios that can be filled by Visual KPI and help ensure a smooth and speedy implementation. Through this alliance, we are initially focused on marketing to the oil and gas and energy industries," said Charles E. Hurley II, RTDM Applications Manager, SAIC."

Visual KPI aggregates operations, financial and infrastructure information from multiple, existing data sources and delivers actionable key performance indicators (KPIs) to users via the desktop, laptop, and virtually all smart phones and PDAs. The web-based software enables users to easily create and customize composite KPIs and scorecards for an instantaneous snapshot of role-based data and trends.

"SAIC's global delivery channel, strong presence in oil and gas, and relationships with major energy producers make them an ideal teammate for Transpara at this stage of our growth," said Michael Saucier, founder and CEO, Transpara. "SAIC's domain expertise will be used to create Visual KPI templates and guidelines to help customers derive maximum value from the

solution. We look forward to working with SAIC to address the ongoing challenge of real-time data portability."

About Transpara Corporation

Transpara delivers Visual KPI, on-demand dashboard software that provides customers in the process and utility industries with role-based, actionable KPIs on any web browser. Visual KPI presents operating information from multiple data sources to users in context and on-demand, enabling timely, informed decision making from any location. By helping users throughout the organization to monitor their asset base, Visual KPI improves performance, reduces operating costs and lowers business risk.
